360° Digital Service

Professional Digital Distribution >

we cover the complete range of tasks, such as release planning, co-ordination, weekly distribution to a variety of platforms, administration and quarterly reporting.

Professional Digital Marketing >

with us your product becomes visible in the digital world. After consulting with you, we come up with the right kind of promotion for you, such as banners, newsletters, features on all relevant Download-platforms.

Professional Digital Management>

We offer the management of all Social Media including your YouTube & Soundcloud channel, web-design services, mastering services and extensive label & artist management.

Professional Digital Distribution

Release planning >

together with you we prepare sophisticated plans for your future online releases, determine priority products and see if an exclusive placement is right for you

Co-Ordination >

the sales team then takes care of the implementation of your release plan.

Weekly delivery >

with the help of our software system all catalogue, current and future releases will be delivered to your choice of download-platforms on a weekly basis.

Administration >

we take care of the details, like making sure deliveries are complete, maintain products that are online & take down such products which you might have sub-licensed and so forth.

Quarterly Reporting >

following the end of each quarter, we generate exact sales reports and provide them to you in digital format.

Web based Interface

Professional Digital Marketing

Product Configuration >

at the beginning, we jointly define which download-platforms are of relevance for you; we work out product- and timing-strategies.

Product Marketing >

the we talk to our download-partners on a weekly basis, promoting your products with them, checking spaces for banners, features, newsletters and others.

Further Marketing Aspects >

you will also see us working actively with your catalogue, proposing special, exclusive compilations, series, albums in a most creative manner.
